Yogyakarta, Indonesia

I am a Bachelor of Information Systems graduate from Amikom University with internship experience as a Systems Analyst and Product Owner. Additionally, I have completed a 5-6 month Full Stack Programmer bootcamp and a 1 month Data Analyst bootcamp. I have skills in systems analysis, product development, and full stack programming, as well as the basics of data analysis. While in high school, I was active in school organizations as operational staff for 2 years and am currently still active as a companion. This experience has strengthened my leadership and teamwork skills. I am enthusiastic to apply my knowledge and skills in a dynamic work environment and contribute to innovative projects.
